BANK CLEARINGS

DO NOT REFLECT BUSINESS OF THIS WEEK.

Farmer, With Bulging Pockets, Ready to Begin His Spring Trading, in City.

Clearings this week, \$687,798.
Same week last year, \$81,144.

All lines of business have had good trade this week despite the fact that the bank clearings show a reduction over the week of last year. However, the business this week was up to the standard of last year, but it is not reflected in the local clearings because a number of large firms have done considerable of their banking with banks out of the city this week, and it did not pass over the local counters.

High prices on all articles of food have made it easy for the farmer, who is about the most careless fellow on earth today. With his pockets bulging with the good prices obtained from the sale of his farm products, he is ready to begin his spring trading, and the merchants are expecting a good spring trade from the rural sections.

Real estate has been fairly active this week and especially in the county. According to the number

of deeds filed for record considerable farming land has changed hands. Real estate dealers say that city real estate is more in demand, and frequent nibbles for property have been received.

Business with the railroad has been excellent. The passenger traffic has been heavy owing to the Mardi Gras festivities at New Orleans, while the freight traffic has taxed the capacity of the car supply. In order to furnish sufficient motive power the locomotive department of the local shops increased the work hours to nine hours a day.

Mr. E. A. Kelley, Belvidere, Ill., writes us: "I am an ex-engineer with 22 years active service to my credit. About three years ago my kidneys were affected so that I had to give up my engine. First I was troubled with severe aching pain over the hips. Then followed inflammation of the bladder, and specks appeared before my eyes. A sample of Foley's Kidney Pills that I tried, so benefited me that I bought more. I continued to take them until now I can safely testify they have made me a sound and well man."—Gilbert's Drug Store.

DISAPPOINTED SUITOR KILLS GIRL AND FATHER.

Tylertown, Mass., Feb. 12.—A sheriff's posse with bloodhounds is searching the county today for Sylvester Bearden, 25, who last night killed George Walker and his daughter, Inez, and fatally wounded two of Walker's children, because Walker objected to his marriage with his daughter. Bearden visited the Walker home. When the father repeated his objection to his presence, the suitor took a shotgun from the table and mortally wounded his sweetheart and her parent. Then he used it as a club and fatally beat the children. Bearden had been a regular caller at the Walker home.

Gunner's Mate Hurt.

Washington, Feb. 12.—Two gunners on board the battleship Virginia were seriously hurt by an explosion in a breach of one of the smaller guns while firing a salute yesterday, according to a wireless dispatch received at the navy department today from Rear Admiral Schroeder at Guantanamo, Cuba, via Key West. J. Irwin, a gunner's mate, third class, was so seriously injured that his arm was amputated above the wrist. T. W. Brunner, gunner's mate, third class, was severely burned about the face.

Blowhard had just finished relating a strange occurrence. "Why do you look so surprised?" he queried of his one-man audience. "Don't you believe it?" "Yes, that's the trouble," rejoined the other. "I happen to know that it's true."—Chicago Daily News.

The Louisville Herald of yesterday says:

The Young Business Men's club of Terre Haute has formally endorsed a plan promoted by George M. Crane, of that city, to start a boat line as a practical demonstration of the use of the Wabash river for traffic.

A packet company is to be formed for service between Terre Haute and Vincennes. It is proposed that 100

men subscribe \$100 each to the company and that a twice-a-week schedule be established. The committee in charge reported that developments in marine machinery and in the construction of shallow draft boats make it feasible to maintain a regular service even now when no work is being done to provide a navigable channel. A number of steamboat lines have been started in the last fifteen years, but their failure was due to lack of capital on the part of the owners. With the enlisted interest of many business men, freight and passenger business would be greatly stimulated, it is believed.

Willis Roberts is now in the employ of Capt. E. Awalt, succeeding Howard Bourland, who died.

Secretary Charles Robertson, of the Paducah and Illinois Ferry company, was in Brookport yesterday looking after the interests of the company's wharfbank there.

President John E. Rollins, of the Illinois Ferry company, and Secretary Charles Robertson, will leave in the morning for Marietta, O. Jeffersonville, Ind., and other shipyards to let a contract for the building of a new ferryboat. They will be gone indefinitely.
